

DEEKSHITH J

Aspiring AI/ML Engineer | Python & Web Development

+91 9535892361 | deekshithj188@gmail.com | linkedin.com/in/deekshith-j-5773b336b | github.com/Deekshith-j

PROFESSIONAL SUMMARY

B.Tech student in Artificial Intelligence and Data Science who builds and ships practical projects, from an IoT water-quality monitor with a live cloud dashboard to a multilingual voice-based RAG assistant. National-level participant in the OpenAI x NxtWave Buildathon. Seeking an AI/ML or full-stack internship.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, HTML, CSS, Sqlite
Backend & Web: Node.js, Express.js, REST APIs, React, Next.js, Tailwind CSS, Supabase, Firebase
AI / ML: LLM applications, Basic RAG, Prompt Engineering
Tools & Hardware: Git, GitHub, Vercel, Arduino, ESP32, Docker, FAISS | Others: Basic DSA (C++)

PROJECTS

Crystal-Agent - Voice Question-Answering Assistant | Personal Project | GitHub

Tech Stack: Python, FAISS, Next.js, Docker
â€¢ Voice assistant that answers questions in English, Hindi, Kannada and Marathi using a large document collection.
â€¢ Searches in two ways (by keywords and by meaning) so answers come from real data, and returns fallback when none found.
â€¢ Fast: finds the best answer in about 157 ms.

HydroVision AI - Water Quality Monitor | Group Project | GitHub

Tech Stack: Arduino, ESP32, Firebase, React, TypeScript | [Role: Team Lead, Hardware, Backend & Database]
â€¢ Sensors measure water pH, dissolved solids, cloudiness and temperature.
â€¢ An ESP32 sends the readings to the cloud, and a web dashboard shows live data, a map and alerts when water is unsafe.

AI Scholarship Agent | Personal Project | GitHub

Tech Stack: JavaScript, Node.js, Express.js, Google Gemini API
â€¢ Finds scholarships for a student and ranks them by how well they match the student profile.
â€¢ Uses small AI agents for each job (search, eligibility, essay help, deadlines).

JanSeva - Government Service Booking | Group Project | GitHub

Tech Stack: TypeScript, Supabase, Vercel | [Role: Team Lead, Backend, Database]
â€¢ Website where citizens book government services and join queues online, so they wait less in person.

ACHIEVEMENTS

â€¢ National-Level Participant, OpenAI x NxtWave Buildathon - built an AI-driven solution with a team under time constraints.

EDUCATION

B.Tech, Artificial Intelligence and Data Science	Aug 2025 - Jun 2029
Sanjay Ghodawat University	1st Year CGPA: 8.55

CORE COMPETENCIES

Communication * Leadership * Teamwork * Analytical Thinking * Adaptability
